Support and Friendship for Families

Home-Start Manchester South is an independent charity which is guided and supported by the national organisation Home-Start UK.

Based in Wythenshawe we provide volunteer support to families who have at least one child under 5 in the 17 wards of the Central West, South and Wythenshawe districts of Manchester.

Families often need support for a variety of reasons e.g. mental health issues, disabilities, family breakdown or bereavement, the demands of multiple births / multiple children or feeling socially isolated, and they can come to us for non-judgemental practical and emotional support. Our fully trained volunteers support families in their own home on a weekly basis building trusting relationships with the families to help them through their difficulties and build better and more enriched lives for themselves and their children.

Chair's Report

This has been another exceptionally busy year for Home-Start Manchester South. We continued to receive grant funding from; Big Lottery, Henry Smith and Lloyds Bank and received some funding from Manchester City Council for a Teenage Parent Pilot and Home-Start UK (DofE) for the Big Hopes Big Future School Readiness Pilot.

This is the first complete year that the present staff team has been in place. Two of our Trustees, Paul Butterworth as Treasurer and Karen Bradley as Volunteer representative both resigned owing to work commitments. Both made invaluable contributions. We welcomed three new Trustees, Eleanor Roaf in April 2014; Kay Welsh and Ian Rush in July 2014.

Once again, we moved premises. The Enterprise Centre had been a useful temporary home, but for over a year we had been planning to move to The Bridge, next to Haveley Hey Primary School. We finally moved in June 2014.

During this financial year 18 additional volunteers have joined our team and been supported by our excellent staff. In addition to their training programme, further comprehensive specialist training was provided for staff, volunteers and trustees. Training was held at various venues in order to attract more volunteers. A number of events were organized for families, highlights of which were the family trip to Wellybobs Farm in the Summer and a visit from Father Christmas to our family Christmas Party.

The School Readiness programme has continued and there has been support for teenage parents as well as the regular family support. In total we supported 75 families, 12 Teenage Parents and 17 School Readiness families.

New funding applications took priority this year as our Big Lottery, Henry Smith and Lloyds Bank grants were coming to an end at various stages throughout 2015.

The Manchester Metropolitan University (MMU) research 'The Spice of Life' was finally completed in November when it was launched in the new Birley Building. The event was well attended and we were also pleased to welcome Rob Parkinson, CEO of Home-Start UK. We also undertook an Independent Evaluation of our 'Reaching Communities' project funded by the Big Lottery which outlines the great success of the project and has some recommendations for the future. Further details of the research and evaluation can be found in this booklet.

Thank you to all Staff, students, volunteers and all those who have supported us in so many ways during the year.

'We know that family support in the early years of a child's life narrows the attainment gap, builds emotional resilience and sets a strong foundation to reduce health and life inequalities.' The Family Commission

MMU Research

The research was funded by Manchester Metropolitan University (MMU) and was to evaluate the work of Home-Start Manchester South for the year 2013 / 2014. The research team interviewed volunteers, trustees and families through focus groups, one to one sessions and through an evaluation questionnaire between April 2013 and July 2014. The findings were published in a report titled 'The Spice of Life' at an event held at the new MMU Birley building in November 2014.

The key findings were:

- The organisation provides a high level of support and (service users) wanted the service to continue to provide 'more of the same'
- Volunteers are trained to a high level and are committed to the values of the organisation
- Health Visitors are the main referrers to the service and highly commend the support provided by the organisation
- The number of Black and Minority Ethnic (BME) families being supported or awaiting a match with a volunteer has increased.

For a full copy of the report 'The Spice of Life' please contact the Home-Start office.

Independent Evaluation

An independent consultant, Pam Foy undertook an evaluation of our Reaching Communities Project in January 2015.

The key findings were:

- Families value highly the support they receive from volunteers; the combination of practical help and emotional support delivered by a non-judgmental volunteer gives them the freedom to be honest about their needs
 - The long term open-ended support from one volunteer promotes effective relationship building
 - Volunteers feel equipped to work with families, well supported, valued and integrated into the team
- Referral agencies value the service highly, viewing it as providing an important service that is not provided by any other agency
- Referrers report positively on the referral process and information sharing processes
- Staff have raised the profile of the project amongst BAME communities in Central West increasing the numbers of BAME families and volunteers.
